Buzz Music

16 November 2022

Is it more expensive to use an agency and better to book directly with the musicians themselves? Here are some reasons people opt for an agency:

We are a filter. We will save you hours of googling of musicians you don't know, wondering if they will be reliable or good enough. We have a curated list of the best and most reliable ones that we really know and trust. This saves you time and stress at an already busy time.

We provide contracts and organise payments. We provide contracts to you and the musicians so they clearly know what is expected. On the day you won't be bothered by someone awkwardly sidling up to you for payment and we have a clear cancellation policy.

Contact with musicians Musicians are a sensitive bunch which is what makes them so good at what they do! We have years of experience working with them so we can speak their language and get the best results with no stress involved.

Crisis management. If disaster strikes and a musician has Covid or breaks an arm we can quickly and easily find a suitable replacement. We have a wide network of fine musicians we can draw on.

Easily contactable We will be available to speak to in the run up to your event. We see it as our job to get everything just right and think of all the little details so you don't have to.

As one of our clients, Lina Arbalaez put it "Buzz Music Group makes it all straight forward. Quality musicians, at a fair price and with the peace of mind of dealing with a reputable organization."

So if you're time poor or don't know much about finding the right music for your event, we do the work for you. You just need to choose who you like most, let us organise the details and enjoy seeing your guests in awe of the music on the day.
